Summer Day Camp Packing List

****We will be running through sprinklers or other cooling down activities during breaks on hot days. Please apply sunscreen prior to camp drop-off. During/After any water activity, campers may reapply sunscreen as they determine it is needed. Please talk with your camper about when and how to apply sunscreen. Thanks! Camp Staff is unable to assist with sunscreen or bug spray application. Additionally, it would be unusual for us to experience any bug issues, so bug spray is likely unnecessary, however, if you need it, please apply it prior to camp.**

A change of clothing and your camper's rain boots/garden clogs will be left at camp for the duration of the week and rain boots/garden clogs will be cleaned and sanitized on the last day for their return to your home.

After camp each day, please change into fresh clothes to enjoy the remainder of your day!

We will provide

- ice water or ice water with lemon or cucumber
- garden veggies fresh from our organic garden
- watermelon
- otter pops

Please be sure to provide any allergy information on the Camp Registration Agreement form and supply your camper with their own food and drinks if they are unable to consume the above. Thanks!

Please talk with your camper about bringing a great attitude, a sense of adventure, curiosity, and respect for others and all living things to camp. Thank you!!!
